

**Dr. Jonna Hynynen**  
Research scientist  
Research Institutes of Sweden

Dr. Jonna Hynynen is a research scientist at Research Institutes of Sweden, RISE. Her research is focused on topics related to fire safety of lithium-ion batteries. She holds a PhD in materials chemistry from Chalmers University of Technology, Sweden. Dr. Jonna Hynynen has published several papers, is co-owner in two patent applications and has had both national and international collaborations. She has a strong background in chemical analysis and materials processing both from academia and industry.
