

Roberto Spanu
Senior Risk Engineer Marine, VICE PRESIDENT,
Corporate Solutions, Underwriting Standard
Swiss Re International SE

Roberto has spent 30 years in the shipping industry. his career began on board merchant ships, as a junior engineer until he reached the position of chief engineer on board tankers, then moving to technical management positions ashore. From 2011 to 2016 he run a consultancy company based in Montecarlo, supporting Customers on safety, technical and operational related matters.

In 2017 Roberto joined Swiss Re Corporate Solutions as responsible for the risk engineering and loss prevention activities of the Marine line of business. He's now actively engaged in sustainability topics as the decarbonization of the shipping industry and ship recycling. Roberto is member of the IMarEST (the Institute of Marine Engineering, Science and Technology), Loss Prevention Committee and of the Ship Recycling Transparency Initiative Steering Group
